Mese 05 Anno 2024

PAZIENTE:

Cognome	MARCIANO	Nome	ANNA MARIA	Letto e stanza	4, 2	Cartella clinica n.	2481/2
----------------	----------	-------------	------------	-----------------------	------	----------------------------	--------

A grid-based chart showing data points marked with 'X' from January 1 to March 31. The y-axis ranges from 35 to 37. A red line is drawn at y=36. Data points are clustered at various heights in January and February, with a notable peak around 36.5 in late February. In March, data points are mostly at the top of the grid (36-37) or missing.
